LENS TYPE: CARVED CYLINDRICAL DOUBLE LENS

STRAP HEIGHT: 40 mm

WEIGHT: 154 g

NO BS
Engineered goggles with special polycarbonate and notch engineering to help ease lens changing process.

ANTI FOG
Double lenses combined with a special hydrophobic treatment on the inner lens.

NO CLOG
Hydrophobic treatment on the vents to minimize fogging.

***SELECT MODELS**
Lens technology for light noise damping and image contrast/definition enhancement.

NODISTORTION
NODISTORTION™ technology provides crystal clear vision at every altitude.

CARVED CYL
High precision crafted lenses with tapered lateral thickness to adjust to the eye's vision power.

Goggles designed and engineered to maximize the peripheral field of view.

ALSO FEATURING:

- + Universal helmet compatibility.
- + Ergonomic frame design.
- + Tapered face foam.
- + NOREFLECT treatment to avoid reflections in the inner lens.
- + Bonus lens + lens thermal hard case available on select models.
- + Grip on straps.
- + Whipped cream multilayer face foam.
- + 100% UVA UVB UVC protection.

LENS PROGRAM

By working with a color spectrum selective light filter, we created a lens that mimics the behavior of noise cancelling headphones on a plane to eliminate color noise while riding. The CONTRAST BOOSTING LENS also boosts contrast, which enhances image definition to be able to see more details on the snow.

ALL CONDITIONS LENS. These lenses are TRULY designed to perform under the widest spectrum of light and weather conditions. After years of extensive field tests we came to understand that it was not a matter of light transmission, but instead of contrast and definition. Our STEALTH REFLECT lenses feature a contrast and definition enhancing tint that provides unique performance in any condition, from fog and flat light to bluebird, all the way to dark afternoons and snowy days. All this while providing effective UVA protection even on the brightest days on the glacier.

CONSTRUCTION: Hard Shell.
 MATERIAL: SHRED SHIELD + MULTI IMPACT.
 CERTIFICATIONS: EN1077B (EUROPE SNOW) / ASTM F2040 (USA SNOW) / EN1078 (EUROPE BIKE) / CPSC (USA BIKE) / ASTM F1492 (USA SKATEBOARD) / EN1385 (EUROPE WATERSPORTS).
 WEIGHT: 495 g

MULTI IMPACT
 Tough and durable EPP liner providing superior protection in multiple impacts.

SHRED SHIELD
 Is a super durable, tough and flexible copolymer shell specifically designed to work with our MULTI IMPACT and NOSHOOCK MULTI IMPACT liners.

RAA
 Patented system minimizing the effects of rotational accelerations to the head on impact by allowing a relative rotation of the helmet on the head through 8 absorption units made with a slip surface and elastic absorption layer.

ICB
 Emergency identifier technology. Emergency responders can SMS text the PIN code that comes with each SHRED helmet.

NOSEASON+
 Super durable multi impact helmet certified according to US and EU regulations for bike, snow, skateboarding and watersports.

FIT PERFECT FINDER
 Fit system with dial wheel and 3 arms that can be adjusted to different positions for a completely customizable fit and goggles integration.

- ALSO FEATURING:
- + SHRED Vent air control for comfort and goggles fogging prevention.
 - + Removable Lining and Ear/Neck pads for easy cleaning.
 - + Beanie Compatible.
 - + Front Ventilation Plugs.
 - + Audio Integration Compatible.
 - + Removable goggle buckle.
 - + Patent Pending.
 - + Asian Fit available upon special request
