GOGGLE TECHNOLOGY

Everyone else ...

The image shows a side-by-side comparison of a snowy mountain landscape. The left side, labeled 'Everyone else ...', shows a slightly hazy view through standard lenses. The right side, labeled 'SHRED.', shows a much clearer and more vibrant view of the same landscape, highlighting the effectiveness of the Contrast Boosting Lens.

CONTRAST | SHRED.Contrast Boosting Lens™

- ✓ Selective Wavelength Filter
- ✓ Optimized to deliver the best vision of the snow under all conditions
- ✓ Specific focus on flat light performance

The logo for SHRED Contrast Boosting Lens, featuring the brand name 'SHRED.' at the top, a circular emblem with 'CONTRAST BOOSTING LENS' inside, and a small red dot at the bottom.

+

Everyone else ...

The image shows a side-by-side comparison of a snowy mountain landscape viewed through goggles. The left side, labeled 'Everyone else ...', shows a view with a significant black border from the goggle frame, indicating a limited field of vision. The right side, labeled 'SHRED.', shows a much wider and more complete view of the landscape, demonstrating the 'SHRED.wide' technology.

FIELD OF VISION | SHRED.wide™

- ✓ Unique approach to functional frame design
- ✓ Provides uninhibited field of vision on ALL of SHRED.'s goggle models
- ✓ Best quality and undistorted vision no matter where you look

The logo for SHRED wide, featuring the brand name 'SHRED.' at the top, a circular emblem with 'SHRED WIDE' and arrows pointing outwards, and a small red dot at the bottom.

=

Everyone else ...

The image shows a side-by-side comparison of a snowy mountain landscape. The left side, labeled 'Everyone else ...', shows a view through standard lenses. The right side, labeled 'SHRED. #SeeMore', shows a view through SHRED lenses, which appears slightly more clear and vibrant than the standard lenses.

SHRED. | SeeMore

- ✓ SHRED. Contrast Boosting Lens™ combined with SHRED.wide™ lenses and frames deliver unmatched performance and experience

SIMPLIFY+

If you're looking for the best performing ski and snowboard goggle that defeats flat light while providing the widest field of vision in the game and a sleek, almost frameless cylindrical lens style, then SHRED. Simplify is your best choice. It features CONTRAST BOOSTING LENS™ (CBL) and NODISTORTION™ technology to enhance contrast and image definition, SHRED.wide™ to maximize field of view, and a 1-2-3 SHRED REPLACEMENT SYSTEM™ that in just 3 easy steps lets you swap between the included "sun and clouds" and "snow and overcast" CBL lenses. Unleash your potential and take control of the mountains for endless fun. SHRED. Simplify is compatible with prescription glasses (OTG).

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ | Enhances image contrast and definition for all weather and light conditions.

SHRED.wide™ | Goggles designed and engineered to maximize your field of view.

SHRED. NODISTORTION™ | Pressure regulation valve technology to provide crystal clear vision during altitude change.

1-2-3 SHRED. REPLACEMENT SYSTEM™ | 3-step quick and easy lens replacement.

SHRED. OTG | Designed to provide compatibility and comfort with prescription glasses.

SHRED. NOCLOG™ | Hydrophobic treatment on vents to reduce clogging from snow or water and help prevent fogging.

TECH SPECS:

LENS | 2 Ultra-high-optical-precision molded, cylindrical double lenses with tapered thickness to optimize vision at all angles and enhance impact protection |

100% UVA-UVB-UVC protection | Super Anti-Fog

FRAME | Width: 195 mm | Height: 105 mm

STRAP | Width: 50 mm | Double silicone line backing | 2-point slide adjustment system

WEIGHT | 175 g

IN THE BOX:

1 pair of SHRED. Simplify goggles | 1 SHRED. CBL™ bonus lens |

2 SHRED. goggle soft cases: one for your goggles and one for your bonus lens |

RARIFY+

If you're hunting for the best goggle with a large spherical lens that kills both flat light and eliminates tunnel-like vision, turn to the SHRED. Rarify, a ski and snowboard goggle that also offers superior fit and comfort. The 2 lenses included with the goggle—a "sun and clouds" lens and a "snow and overcast" lens—feature **CONTRAST BOOSTING LENS™ (CBL)** and **NODISTORTION™** technology to enhance contrast and image definition while **SHRED.wide™** maximizes field of view, giving you the control, confidence, and style you need to reach the next level of performance and stoke. SHRED. Rarify is compatible with prescription glasses (OTG).

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ | Enhances image contrast and definition for all weather and light conditions.

SHRED.wide™ | Goggles designed and engineered to maximize your field of view.

SHRED. NODISTORTION™ | Pressure regulation valve technology to provide crystal clear vision during altitude change.

HELMET TECHNOLOGY

SMART IMPACT PROTECTION

Powered by SHRED.'s Rotational Energy System™ and Slytech™ Shock Absorption.

To boost your confidence and fun, SHRED.'s Smart Impact Protection System™ effectively combats both rotational and linear forces. Simply put, this reduces harmful forces transmitted to your brain. SHRED.'s Rotational Energy System™ offers the lightest and thinnest solution for addressing rotational forces while Slytech™ Shock Absorption maximizes the helmet's ability to dissipate linear impact energy. Unleash your potential with SHRED.'s Smart Impact Protection System.™

Smart Impact Protection Made Even Smarter.

NOTION NOSHOCK

If you're a skier or snowboarder searching for a premium helmet that boosts your confidence by offering unrivaled technology to absorb both rotational and linear energy—while also striking the perfect balance between being lightweight and durable—look no further than the Notion NoShock. Equipped with SHRED.'s SMART IMPACT PROTECTION SYSTEM™, this new flagship helmet pairs SHRED.'s ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—with the helmet's integrated honeycomb-cone-structured SLYTECH™ SHOCK ABSORPTION to create an unparalleled synergy for combating linear and multi-directional forces. Its hybrid construction combines the durability of a hard shell upper with the weight savings of an in-molded lower shell and sidewalls. A unique 3-position switch allows you to control the top, back, and side vents simultaneously. A passive RECCO reflector further enhances your safety while the helmet's Fidlock magnetic closure offers security and convenience. The Notion NoShock boosts your confidence, allowing you to charge harder and amplify your fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

SLYTECH™ SHOCK ABSORPTION | SHRED.'s patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the helmet's EPS impact absorption element.

XT2® | Anti-microbial technology to provide permanent odor protection.

VENTILATION | 3-position switch controls top, back and side vents simultaneously.

RECCO | Integrated reflector with passive technology that enables rescue professionals to search for you in the event of an avalanche or if lost outdoors.

FIDLOCK | Magnetic closure to enhance convenience, security, and efficiency.

HEXAFLOW | Three-dimensional EPS with channels to enhance linear impact absorption and maximize ventilation.

If you're looking to venture into the backcountry or lap the resort with a superlight in-mold ski and snowboard helmet that offers a superior fit, exceptional comfort, and unrivaled technology that provides both rotational and linear energy absorption, the SHRED. Slam-Cap NoShock 2.0 is the clear contender. Its SMART IMPACT PROTECTION SYSTEM™ pairs SHRED.'s ROTATIONAL ENERGY SYSTEM™ (RES) – which is the lightest and thinnest solution for addressing rotational forces—with the helmet's integrated honeycomb-cone-structured SLYTECH™ SHOCK ABSORPTION to create an unparalleled synergy for combating linear and multi-directional forces. Reflecting SHRED.'s commitment to continual refinement, the Slam-Cap NoShock 2.0 features an improved fit for even greater comfort. Thanks to the Slam-Cap NoShock 2.0, you can charge with confidence and boost your performance, style, and fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patented technology that manages the effects of rotational accelerations to the head on impact. It allows a relative movement between the helmet and the head through the use of ultra-thin and ultra-light elastic absorption units.

SLYTECH™ SHOCK ABSORPTION | SHRED.'s patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the helmet's EPS impact absorption element.

TOTALITY NOSHOCK

Are you searching for a lightweight yet extremely durable hard shell ski and snowboard helmet that offers a superior fit and comfort and features unrivaled technology to address both rotational and linear energy absorption? Then the Totality NoShock is the perfect choice. Its SMART IMPACT PROTECTION SYSTEM™ pairs SHRED's ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—with the helmet's integrated honeycomb-cone-structured SLYTECH™ SHOCK ABSORPTION to create an unparalleled synergy for combating linear and multi-directional forces. The Totality NoShock gives you the confidence you need to reach the next level, feel like a pro, and have fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

SLYTECH™ SHOCK ABSORPTION | SHRED's patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the helmet's EPS impact absorption element.

XT2® | Anti-microbial technology to provide permanent odor protection.

VENTILATION | Strategic vent system to channel warm air from the goggles and the front of the helmet to its back, preventing goggles from fogging and the head from sweating.

SL CHIN GUARD | Fully compatible with SHRED. Soft-Ear Chin Guards.

Are you searching for a lightweight ski and snowboard helmet that addresses rotational energy absorption while also providing an unrivaled fit and style? Then look no further than the SHRED. Totality. Thanks to its **ROTATIONAL ENERGY SYSTEM™ (RES)**—which is the lightest and thinnest solution for addressing rotational forces—and a ventilation system that maximizes vision and comfort by using 12 vents to pull warm air from your goggles and helmet, the Totality provides the performance, safety, confidence, and style you need to feel like a pro and have fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

VENTILATION | Strategic vent system to channel warm air from the goggles and the front of the helmet to its back, preventing goggles from fogging and the head from sweating.

SL CHIN GUARD | Fully compatible with SHRED. Soft-Ear Chin Guards.

BASHER ULTIMATE

Are you a ski racer searching for the best-performing FIS-certified helmet that not only has the lowest profile, fits great, and looks amazing, but is also lightweight and offers unrivaled technology to address both rotational and linear energy absorption? Then the SHRED. Basher Ultimate is the perfect choice. Its **ROTATIONAL ENERGY SYSTEM™ (RES)**—which is the lightest and thinnest solution for addressing rotational forces—is paired with **Casidion™**—a nanotechnology-based impact liner that's thinner and lighter than those used in other racing helmets—to create an unparalleled synergy for combating linear and multi-directional forces. Charge with confidence and boost your performance, style, and fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

CASIDION™ | Revolutionary nanotech foam that goes beyond the performance of traditional materials. This absorption element offers protection even in the case of repeated impacts and provides an extraordinarily high impact absorption efficiency, allowing it to be thinner and lighter than other commonly used components.

XT2® | Anti-microbial technology to provide permanent odor protection.

FIS RH 2013 | Certified according to FIS RH 2013 ski racing helmet safety standards.

CUSTOM FIT KIT | An additional set of thicker pads and ear pieces to fine tune the helmet's fit.

SL CHIN GUARD | Fully compatible with SHRED. Hard-Ear Chin Guards.

BASHER

If you're a ski racer searching for an FIS certified helmet that offers the best performance and style and features unrivaled technology to address rotational energy absorption, then look no further than the SHRED. Basher. Its ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—is paired with the helmet's Impact Recovery Liner to create an exceptional synergy for combating linear and multi-directional forces. Thanks to the SHRED. Basher, you can charge with confidence and elevate your performance.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

IMPACT RECOVERY LINER | Tough and durable EPP absorption element to provide superior protection during multiple impacts within a single accident.

FIS RH 2013 | Certified according to FIS RH 2013 ski racing helmet safety standards.

PROTECTION TECHNOLOGY

Ultimate Protection Performance

Powered by SHRED.'s Slytech™ Shock Absorption.

Especially thin, light, and flexible, Slytech Shock Absorption provides protection you can forget you're wearing—until you truly need it. Developed by SHRED. Co-founder and materials engineer Carlo Salmini while at MIT, this proprietary shock-absorbing material intelligently and progressively adapts to different forces and impact speeds for thorough protection—even in low energy crashes. By staying flexible when you ride but hardening when you crash, it offers enduring comfort and unparalleled protection. Drop in with confidence with SHRED.'s Slytech Shock Absorption.

PROTECTION TECHNOLOGY

Slytech™ Shock
Absorption Unit

SHRED. | Slytech™ Shock Absorption

- ✓ Developed by SHRED.'s Co-founder and MIT graduate Carlo Salmini
- ✓ Protection from linear impacts
- ✓ Unmatched flexibility and comfort
- ✓ Unparalleled shock absorption efficiency

ENHANCED WITH

You can forget you are wearing it...until you truly need it.

P.S. If you can forget you're wearing it, there's no point not to use it.

NOSHOCK BACK PROTECTOR

If you continually push your limits and are looking for the highest level of protection and enhanced support, SHRED. NoShock Back Protector is just what you need. Their honeycomb-cone-structured SLYTECH™ SHOCK ABSORPTION provides the highest impact energy absorption performance (Level 2) and offers uncompromised comfort, flexibility, and ventilation. A 3-point belt also supports the lower back. Thanks to Shred's NoShock Back Protector, you can feel strong, confident, stoked, and in control.

FEATURES

SLYTECH™ SHOCK ABSORPTION | Our proprietary shock-absorbing material intelligently and progressively adapts to different forces and impact speeds for thorough protection—even in low energy crashes. Simply put, it stays flexible when you ride but hardens to protect you when you crash.

SLYTECH™ NOSHOCK | Patent-pending honeycomb cone structure that further increases the performance, safety, and comfort of our proprietary Slytech™ Shock Absorption by reducing weight and promoting ventilation.

SHRED.

CARBON SHIN GUARDS

If you're a ski racer looking for unrivaled performance when you clear slalom gates, SHRED. Carbon Shin Guards are the perfect choice. Their SLYTECH™ SHIELD CARBON advanced composite material provides exceptional protection and features ADVANCED GATE GLIDE technology to minimize friction. And to stay in place, they sport SHRED. GRIP PADS. With their unparalleled shin protection and gate clearing speed, the SHRED. Carbon Shin Guards provide the confidence you need to focus on your skiing and feel like a pro.

FEATURES:

SLYTECH™ SHIELD CARBON | A high performance material blend that combines carbon fiber technology and our SLYTECH SHIELD material to create shells that are extraordinarily durable yet lightweight and that provide the best performance at all temperatures.

ADVANCED GATE GLIDE | NOFRICTION PTFE technology blends PTFE into the SLYTECH™ SHIELD CARBON composite material. This serves as a lubricant, reducing friction and drag between the guard and gates to boost speed.

CARBON SHIN GUARDS LARGE

SKI RACE CUSTOM PROTECTIVE JACKETS

If you're a ski racer looking to protect your upper body from impacts with gates and want unconstrained movement in a design with a low profile, then turn to the SHRED. Ski Race Custom Protective Jackets. Their SLYTECH™ SHOCK ABSORPTION in the Cold Impact Formulation efficiently adapts to different forces and impact speeds, offering protection from gate impacts on the forearms and shoulders—even in especially cold temperatures. To customize fit and performance, the forearm and shoulder pads can be repositioned—or completely removed—thanks to their Velcro attachments and sleeves. The front zipper also allows for easy access. Gain the confidence you need to reach the next level and feel like a pro with the SHRED. Ski Race Custom Protective Jackets.

FEATURES

SLYTECH™ SHOCK ABSORPTION | Our proprietary shock-absorbing material intelligently and progressively adapts to different forces and impact speeds for thorough protection—even in low energy crashes. Simply put, it stays flexible when you ride but hardens to protect you when you crash.

BELUSHKI POLARIZED

If you love the outdoors and need sunglasses to pursue your passion – with plenty of style – look no further than the SHRED. Belushki. Armed with a timeless design, it features flatter lenses with a base six curve. Made of liquid-cast urethane, these lenses showcase SHRED.'s CONTRAST BOOSTING LENS™ (CBL) technology to enhance contrast, image definition, and the vividness of colors – no matter the terrain or conditions. The Belushki also features a featherlight NOWEIGHT™ frame and strategically-positioned rubber pads ensure it stays in place. The Belushki gives you the confidence, performance, and style you need to elevate your game and amplify your fun.

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ | Enhances contrast and definition for all weather, surface, and light conditions.

SHRED. NOWEIGHT™ | Especially light, thin, and flexible, this frame design reduces the material used in interior areas subject to minimal stress and reinforces target areas for maximum durability. This creates tremendous strength without compromising the clean, streamlined appearance of the frame's exterior.

SHRED. POLARIZED | Polarizing filters of the highest quality enhance our lenses and reduce glare by blocking all angles of light that are scattered and reflected from surfaces such as water, snow, and ice.

SHRED. NOSLIP™ | Specially formulated rubber pads on the nose and temple tips to further enhance comfort and ensure the frames stay in place while you're in motion.

BELUSHKI PHOTOCROMIC POLARIZED

If you live for the outdoors and are searching for sunglasses that pair exceptional performance and style with polarized photochromic lenses that adapt to changing light conditions, then look no further than the SHRED. Belushki Photochromic. Armed with a timeless design, it features flatter lenses with a base six curve. Made of liquid-cast urethane, these lenses showcase SHRED.'s CONTRAST BOOSTING LENS™ (CBL) technology to enhance contrast, image definition, and the vividness of colors – no matter the terrain or conditions. The Belushki Photochromic also features a featherlight NOWEIGHT™ frame and strategically-positioned rubber pads ensure it stays in place. Pursue your passion and amplify your fun with the Belushki Photochromic.

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ | Enhances contrast and definition for all weather, surface, and light conditions.

SHRED. NOWEIGHT™ | Especially light, thin, and flexible, this frame design reduces the material used in interior areas subject to minimal stress and reinforces target areas for maximum durability. This creates tremendous strength without compromising the clean, streamlined appearance of the frame's exterior.

SHRED. PHOTOCROMIC LENSES | Photochromic lenses automatically adjust to changing light conditions, altering their tint to improve vision and performance.

SHRED. POLARIZED | Polarizing filters of the highest quality enhance our lenses and reduce glare by blocking all angles of light that are scattered and reflected from surfaces such as water, snow, and ice.

SHRED. NOSLIP™ | Specially formulated rubber pads on the nose and temple tips to further enhance comfort and ensure the frames stay in place while you're in motion.

STOMP

If your life revolves around the outdoors and you need sunglasses that offer exceptional clarity and contrast, the SHRED. Stomp is just what you need—no matter the adventure. Its liquid-cast urethane lenses showcase SHRED's CONTRAST BOOSTING LENS™ (CBL) technology to enhance contrast, image definition, and the vividness of colors. With a base six curve, these lenses provide the featherlight NOWEIGHT™ frame with a flatter appearance. Strategically-positioned rubber pads also ensure the frames stay in place while you're in motion. By infusing a classic design with unrivaled performance, the Stomp boosts your confidence, style, and fun.

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ | Enhances image contrast and definition for all weather, surface, and light conditions.

SHRED. NOWEIGHT™ | Especially light, thin, and flexible, this frame design reduces the material used in interior areas subject to minimal stress and reinforces target areas for maximum durability. PROVOCATOR AIRFLOW

If you're especially active and demand sunglasses that provide unrivaled clarity and performance in a wraparound design for additional protection, the Provocator Airflow is the perfect choice. Its liquid-cast urethane lenses showcase CONTRAST BOOSTING LENS™ (CBL) technology to enhance contrast, image definition, and the vividness of colors. It features base eight curve lenses with a thin vent to maximize airflow and prevent fogging. The Provocator Airflow's NOWEIGHT™ frame maximizes performance and durability. And strategically-positioned rubber pads ensure it stays in place. No matter how you experience the outdoors, the Provocator Airflow helps you unleash your potential and boost your fun.

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ | Enhances image contrast and definition for all weather, surface, and light conditions.

SHRED. NOWEIGHT™ | Especially light, thin, and flexible, this frame design reduces the material used in interior areas subject to minimal stress and reinforces target areas for maximum durability. This creates tremendous strength without compromising the clean, streamlined appearance of the frame's exterior.

WE CARE

At SHRED, we aim to inspire change and make a positive impact on the world around us.

And we're honored to stand with and support kindred spirits in these efforts.

POW 
PROTECT OUR WINTERS

protectourwinters.org

Skiers, snowboarders and mountain bikers are often intimidated by the challenges they face. SHRED.'s eyewear and protection design and technology give you the confidence to reach the next level, feel like a pro, and have fun. #TechnicallyFun

A photograph of two skiers sitting on a metal chairlift. The skier on the left is wearing a dark blue jacket, black pants, and a black helmet with 'SHRED' written on it. The skier on the right is wearing a green and blue jacket, blue pants, and a black helmet with 'SHRED' written on it. They are both wearing goggles and gloves. The chairlift is moving up a snowy slope. The background shows more of the snowy mountain and some evergreen trees.
